

The State Innovation Models (SIM) initiative partners with states to advance multi-payer health care payment and delivery system reform models. Each state-led model aims to achieve better quality of care, lower costs, and improved health for the population of the participating states or territory. The initiative is testing the ability of state governments to utilize policy and regulatory levers to accelerate health system transformation to meet these aims.

Timespan:	48 months, started in 2015
Stages:	Design, Planning, Implementation, Measurement
Funding:	\$70 Million
Counties in test Regions:	Jackson, Muskegon, Washtenaw & Livingston, Genesee, Northern Michigan
Also invited to participate:	MiPCT Patient Centered Medical Homes, CMH/PIHP, FQHC

State Strategies for SIM Implementation	GLHC Solutions & Services
Patient Centered Medical Home	GLHC helps meet multiple PCMH standards and requirements (See PCMH resources)
Community Health Innovation Region (CHIR) (includes HD, CMH, Health Plans, ASC & Comm. Members)	
Health Information Exchange/Health Information Technology "QO"	GLHC meets this State contractual requirement
Collaborative Learning Network	
Stakeholder Engagement Committee Structure	
Accountable System of Care (ASC) (Requires shared savings or risk arrangement with Health Plans)	GLHC Reporting & Analytics Tools for care across the community/service types

Key Components:			GLHC Solutions & Services
Care Connected Community: PCMH creates linkages	<ol style="list-style-type: none"> Physical Health Behavioral Health Social Determinants of Health (Community Resources) 	Community Health Needs Assessment includes 9 social risk factors and PCP oversight	<ul style="list-style-type: none"> Referral Network Direct Admission Discharge Transfer (ADT) Virtual Integrated Patient Record (VIPR)
Care Coordination	Transitions of Care and Community Care Plans		Referral Network, Admission Discharge Transfer (ADT), and Virtual Integrated Patient Record (VIPR)
Outcomes Metrics	<ul style="list-style-type: none"> Adverse Birth Outcomes Emergency Room Utilization Multiple Chronic diseases pts 		Community-wide analytics and reporting tools
